To All Pastors:

The Kitchen Help Schedule for the General Assembly is a most important part of the General Assembly. The Kitchen aims to give service and good food to Israel. It is long and hard work that can be made easier with your help. Pastors are to make sure that this schedule is followed and that the Members from Temple are informed and on time to work. Please check with the Kitchen Head (Sister LaVaughn Herd) on the day your Temple is assigned to see if your Temple is doing its part. If you are not in attendance send the Assistant Pastor or some other official from your Temple in your place to check

Each Temple is asked to send on its assigned day 2 workers – your Kitchen Head and one other capable and willing worker reporting at 9 a.m.
